

CECW-ED

DEPARTMENT OF THE ARMY  
U.S. Army Corps of Engineers  
Washington, D.C. 20314-1000

EM 1110-2-2201

Manual  
No. 1110-2-2201

31 May 1994

Engineering and Design  
ARCH DAM DESIGN

Table of Contents

|            | <u>Subject</u>   | <u>Paragraph</u> | <u>Page</u> |
|------------|--|------------------|-------------|
| CHAPTER 1. | INTRODUCTION   |                  |             |
|            | Purpose and Scope-----   | 1-1              | 1-1         |
|            | Applicability-----   | 1-2              | 1-1         |
|            | References-----  | 1-3              | 1-1         |
|            | Definitions-----   | 1-4              | 1-2         |
| CHAPTER 2. | GENERAL DESIGN CONSIDERATIONS  |                  |             |
|            | Dam Site-----  | 2-1              | 2-1         |
|            | Length-Height Ratio-----   | 2-2              | 2-1         |
|            | Smooth Abutments-----  | 2-3              | 2-1         |
|            | Angle Between Arch and Abutment-----                                   | 2-4              | 2-1         |
|            | Arch Abutments-----  | 2-5              | 2-2         |
|            | Foundation-----  | 2-6              | 2-3         |
|            | Foundation Deformation Modulus-----                                    | 2-7              | 2-3         |
|            | Effect of Overflow Spillway-----                                       | 2-8              | 2-4         |
| CHAPTER 3. | SPILLWAYS, OUTLET WORKS AND APPURTENANCES,<br>AND RESTITUTION CONCRETE |                  |             |
|            | Introduction-----  | 3-1              | 3-1         |
|            | Spillways-----   | 3-2              | 3-1         |
|            | Outlet Works-----  | 3-3              | 3-8         |
|            | Appurtenances-----   | 3-4              | 3-13        |
|            | Restitution Concrete-----  | 3-5              | 3-24        |
| CHAPTER 4. | LOADING COMBINATIONS   |                  |             |
|            | General-----   | 4-1              | 4-1         |
|            | Loading Combinations-----  | 4-2              | 4-2         |
|            | Selection of Load Cases for Various<br>Phases of Design-----           | 4-3              | 4-5         |

| <u>Subject</u>                             | <u>Paragraph</u> | <u>Page</u> |
|--|------------------|-------------|
| CHAPTER 5. DESIGN LAYOUT                   |                  |             |
| General Design Process-----                | 5-1              | 5-1         |
| Levels of Design-----                      | 5-2              | 5-1         |
| Procedure-----                             | 5-3              | 5-2         |
| Manual Layout-----                         | 5-4              | 5-2         |
| Preliminary Stress Analyses-----           | 5-5              | 5-13        |
| Evaluation of Results-----                 | 5-6              | 5-14        |
| Improvement of Design-----                 | 5-7              | 5-14        |
| Presentation of Design Layout-----         | 5-8              | 5-15        |
| Computer-assisted Layouts-----             | 5-9              | 5-20        |
| CHAPTER 6. STATIC ANALYSIS                 |                  |             |
| Introduction-----                          | 6-1              | 6-1         |
| Design Data Required-----                  | 6-2              | 6-1         |
| Method of Analysis-----                    | 6-3              | 6-3         |
| Structural Modeling-----                   | 6-4              | 6-5         |
| Presentation of Results-----               | 6-5              | 6-17        |
| Evaluation of Stress Results-----          | 6-6              | 6-18        |
| CHAPTER 7. EARTHQUAKE RESPONSE ANALYSIS    |                  |             |
| Introduction-----                          | 7-1              | 7-1         |
| Geological-Seismological Investigation---  | 7-2              | 7-1         |
| Design Earthquakes-----                    | 7-3              | 7-3         |
| Earthquake Ground Motions-----             | 7-4              | 7-3         |
| Finite Element Modeling Factors            |                  |             |
| Affecting Dynamic Response-----            | 7-5              | 7-6         |
| Method of Analysis-----                    | 7-6              | 7-12        |
| Evaluation and Presentation of Results---- | 7-7              | 7-14        |
| CHAPTER 8. TEMPERATURE STUDIES             |                  |             |
| Introduction-----                          | 8-1              | 8-1         |
| Operational Temperature Studies-----       | 8-2              | 8-1         |
| Construction Temperatures Studies-----     | 8-3              | 8-15        |
| CHAPTER 9. STRUCTURAL PROPERTIES           |                  |             |
| Introduction-----                          | 9-1              | 9-1         |
| Material Investigations-----               | 9-2              | 9-1         |
| Mix Designs-----                           | 9-3              | 9-3         |
| Testing During Design-----                 | 9-4              | 9-6         |
| Properties To Be Assumed Prior             |                  |             |
| To Testing-----                            | 9-5              | 9-10        |

|             | <u>Subject</u>   | <u>Paragraph</u> | <u>Page</u> |
|-------------|--|------------------|-------------|
| CHAPTER 10. | FOUNDATION INVESTIGATIONS                              |                  |             |
|             | Introduction-----                                      | 10-1             | 10-1        |
|             | Site Selection Investigations-----                     | 10-2             | 10-1        |
|             | Geological Investigations of<br>Selected Dam Site----- | 10-3             | 10-2        |
|             | Rock Mechanics Investigations-----                     | 10-4             | 10-11       |
|             | Rock Mechanics Analyses-----                           | 10-5             | 10-18       |
| CHAPTER 11. | CRITERIA   |                  |             |
|             | Static-----  | 11-1             | 11-1        |
|             | Dynamic-----   | 11-2             | 11-3        |
| CHAPTER 12. | INSTRUMENTATION  |                  |             |
|             | Introduction-----                                      | 12-1             | 12-1        |
|             | General Considerations-----                            | 12-2             | 12-1        |
|             | Monitoring Movement-----                               | 12-3             | 12-2        |
|             | Monitoring Stresses and Strains-----                   | 12-4             | 12-5        |
|             | Seepage Monitoring-----                                | 12-5             | 12-5        |
|             | Pressure Monitoring-----                               | 12-6             | 12-5        |
|             | Temperature Monitoring-----                            | 12-7             | 12-6        |
|             | General Layout Requirements-----                       | 12-8             | 12-6        |
|             | Readout Schedule-----                                  | 12-9             | 12-12       |
| CHAPTER 13. | CONSTRUCTION   |                  |             |
|             | Introduction-----                                      | 13-1             | 13-1        |
|             | Diversion-----   | 13-2             | 13-1        |
|             | Foundation Excavation-----                             | 13-3             | 13-5        |
|             | Consolidation Grouting and Grout<br>Curtain-----       | 13-4             | 13-5        |
|             | Concrete Operations-----                               | 13-5             | 13-10       |
|             | Monolith Joints-----                                   | 13-6             | 13-13       |
|             | Galleries and Adits-----                               | 13-7             | 13-23       |
|             | Drains-----  | 13-8             | 13-27       |
|             | Appurtenant Structures-----                            | 13-9             | 13-28       |
